Paradise Collection Sleep System

Welcome to Paradise

Thank you for showing interest in The Paradise Sleep System. Dutch Craft is confident you will have years of healthful, restful, restorative sleep every night you go to bed.

Each mattress was purposely developed with its own unique feel and postural support. Unlike conventional innersprings you will experience less disturbance among partners referred to as motion transfer, reduction of soreness caused by pressure points in the hip and shoulder area and better body alignment offering a more comfortable sleep.

A great deal of time was given to this collection, hours of testing different foam applications to get it right the first time. We started with the support base which is the most important part of any mattress. Dutch Craft chose the world's first bio-based foam, it is the most eco-friendly, highest resilient foam in the market place to date, next we carefully combined a variety of foams such as Talalay Latex, Visco-Elastic memory foam, and AvantaFlex™, each with their unique characteristic to produce a myriad of comfort levels.

By layering these foams on top of our bio-base foam core we found the recipe for maximizing the contour of one's body, and optimum comfort. These attributes made it the perfect choice for The Paradise Collection.

Dutch Craft did not stop there, we wanted to make the sleep system comfortable to body temperature by adding organic cotton, aloe vera, and bamboo covers, making The Paradise Collection the most eco-friendly most comfortable affordable mattress in the market place.

Additional Paradise Collection Benefits;

- Hypo Allergenic
- Dust Mite Resistant
- Mold and Mildew Resistant
- All fabrics are eco-friendly by making Paradise Collection the healthiest, green group of beds found anywhere.

Dutch Craft Sleep Products, has invested extensive research and development into The Paradise Collection and we wish you a good night's sleep.
